

# GRAHAM BOYLE

## FRONTEND SOFTWARE ENGINEER

Lagos Nigeria | grahamboyle22@gmail.com | [www.grahamboyle-dev.vercel.app](http://www.grahamboyle-dev.vercel.app)

### SUMMARY

Results-driven Frontend Engineer and Technical Writer with significant experience building responsive, user-friendly web applications and creating clear, concise technical content. I specialize in crafting innovative solutions using modern technologies, optimizing workflows, and collaborating with cross-functional teams to deliver projects that meet and exceed business objectives. I leverage my expertise in React, Next.js, and other frontend frameworks to craft seamless user experiences aligned with organizational goals and provide clear documentation to support developers and users.

### PROFESSIONAL EXPERIENCE

#### Lead Frontend Engineer, Shopwith Gomall Jan 2025 - Present

- Lead the development of a highly responsive, scalable e-commerce platform, improving the user experience and increasing customer satisfaction.
- Integrated with third-party services and APIs to enhance e-commerce functionality, including payment systems, product catalog management, and user authentication.
- Applied agile methodologies and version control (e.g., Git) to track project progress and ensure efficient team collaboration.

#### Frontend Internship, CognoRise Info Tech Apr 2024 - May 2024

- Designed and developed multiple web applications, including a calculator, to-do list, countdown timer, and currency converter, demonstrating strong problem-solving and technical skills.
- Gained hands-on experience in full-stack development, focusing on both frontend design and basic backend functionality.

#### Web Developer, BabyToshi CTO Dec 2024

- Utilized modern frontend technologies, such as React and Next.js, to build a fast, dynamic, and user-friendly website.
- Focused on improving website performance, resulting in faster load times and higher user engagement.

### PROJECTS

#### Qareer App (SAAS) In-progress

- Designed and developed Qareer, a full-stack SaaS application aimed at streamlining job tracking and career management.
- Implemented authentication and data storage using Firebase, ensuring secure and scalable user management.
- Integrated third-party APIs to enhance functionality, including job listings and notifications for job status updates.
